Certificate of Competence in Educational Testing

**éirim**

The National Assessment Agency Ltd.

## Who we are

Éirim: The National Assessment Agency Ltd. is an Irish company established in response to the growing demand for psycho-educational assessments. Established and run by experienced psychologists at the forefront of educational assessment, we are committed to providing high quality professional assessments nationwide.

Now, Éirim, in association with Real Training, is pleased to offer the first online training course in Ireland, leading to the Certificate of Competence in Educational Testing (CCET).

## A recognised qualification - Certificate of Competence in Educational Testing

Accredited by the British Psychological Society (BPS), this qualification is internationally recognised and is rapidly becoming a 'must have' for individuals administering educational tests.

The course is relevant to anyone who works in education and/or who wants to understand and interpret tests.

This is an open access course, which means that no pre-qualifications are necessary. It is open to all.

### Benefits

1. An internationally recognised qualification
2. Empowering you to use psychometric tests in a constructive and informed way
3. The course can be undertaken wherever suits you, in your own time and at your own pace
4. Expert advice and tuition from experienced psychologists
5. Develop your competence, provide career opportunities and enhance your confidence
6. Develop hypotheses about an individual's learning
7. Analyse an individual's needs thoroughly
8. Understand and confidently interpret other reports from other professionals

## What's involved?

The course takes place online and uses the latest e-learning technology.

The course is made up of 7 units, designed to work together to gradually build knowledge and understanding. You will be supplied with a teaching manual and assigned a tutor to guide you through each unit (all our tutors are qualified psychologists). There will be tasks and discussions throughout the units and you will be able to work collaboratively with other students.

For most students the course can be completed within one academic year, working approximately one evening a week.

### How is my competence assessed?

There are seven units to be completed. Each student must submit at least one written task per unit. Online support will be available to help you.

When you have completed the taught aspects of the course you will submit a portfolio of three professional assessment reports with an index that cross references your reports with the British Psychological Society competences. A DVD of you administering a test must also be submitted. Again, there is plenty of support available for you.

Finally, you will also be required to attend a 'competence day' along with other online students. This will be arranged at the most convenient location for the group.

**Price: €1,250 Online CCET course**
